ABOUT US

ABOUT US

Vijayanth Group (Vijayanth Developers Private Limited) established in 2008 is one of the leaders in the Infrastructure development business. The group believes in exploring businesses of the future which are aligned with its philosophy. Cleaner environment is the need of the hour in India. There is huge potential of harnessing the abundantly natural resources for generation of

electric power. The growing demand for renewable energy inspired the management to venture into installing windmills across TamilNadu. Also, in line with the Indian subcontinent's immense solar potential, they established an exclusive company called Vijayanth Cosmic Powers Private Limited (VCPPL) to handle Solar power projects.

VCPPL provides turnkey solutions for solar projects from CONCEPT TO COMMISSIONING. This includes Engineering, Procurement & Construction (EPC) and Operations & Maintenance (O&M) solutions for Grid-connected ground-mounted solar and Rooftop solar projects. The company develops customized Solar projects for Industrial, Commercial, and Institutional consumers.

In total, Vijayanth group currently manages over 15 MW capacity of wind farms and Solar plants in TamilNadu. The decrease in the cost of solar power has been particularly remarkable. The global weighted average Levelized Cost of Electricity (LCOE) for utility-scale Solar PhotoVoltaic's (PV) fell an estimated 80% between 2010 and 2020. Solar power can now. compete head-on with non-renewable power generation.

ABOUT US

WHAT ARE THE ADVANTAGES OF SOLAR POWER?

- Higher generation for the investment (ROCE) compared to other renewable sources
- Low maintenance cost thus, increase in savings.
- Decrease in Carbon footprints. Greener Future
- Reduction on your electricity bills, protection from the future hike in electricity prices

ADVANTAGES

• **Increase your property value.**

• **Sell your excess energy to Grid or third party**

• **Avail 40% Accelerated Depreciation for Investments**

• **Meet the Renewable Purchase Obligation (RPO) and Solar Purchase Obligation (SPO)**

OUR PHILOSOPHY

OUR PHILOSOPHY

**“We strive to be your TRUSTWORTHY PARTNER
for greener and cheaper ELECTRICITY supply”**

Core Value

Core Purpose

**A Greener
world for a
Better tomorrow**

**Innovation,
Commitment
and Be a
Solution Provider**

Core Team

**Dedicated team
of professionals
with
more than
20 years of
experience**

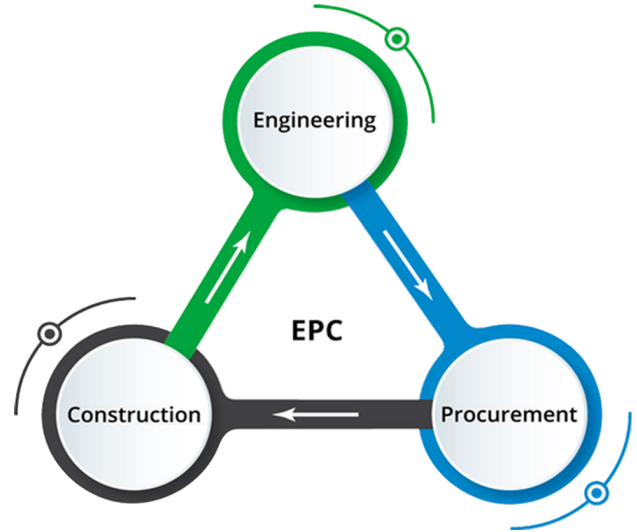

WHY VIJAYANTH?

- More than 15 MW of installation experience
- Infrastructure & technical expertise
- A customized selection of products
- Competitive pricing
- One Point contract responsibility
- Experienced civil team ensuring stability
- Experienced Liaison team ensuring liaison work on time
- Effective site management team ensuring smooth implementation of solar projects with local coordination
- Cost-effective post-installation services
- After sales support throughout the lifetime of the project (Warranty and Insurance Support)
- Customized Power Purchase Agreement (PPA) with ownership transfer option

WHY VIJAYANTH?

OUR SERVICES

Below are the services
we at **VIJAYANTH
COSMIC POWERS**
offer professionally and
with all diligence to
our clients.

THIS SERVICE INCLUDES

**Load
Assessment**

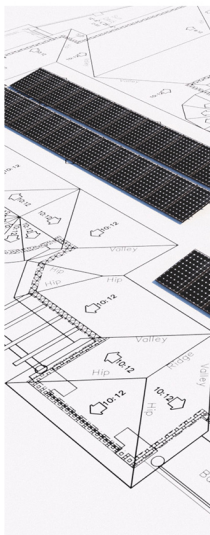

**Site selection
and
Assessment**

**Pre-feasibility
study**

**Design and
Layout**

**Project
Planning**

**Vendor
Finalization**

**Procurement
and Supply**

OUR SERVICES

Liaison and Approvals

Construction

Installation

Line and Evocation work

Testing and Commissioning

AMC and O&M.

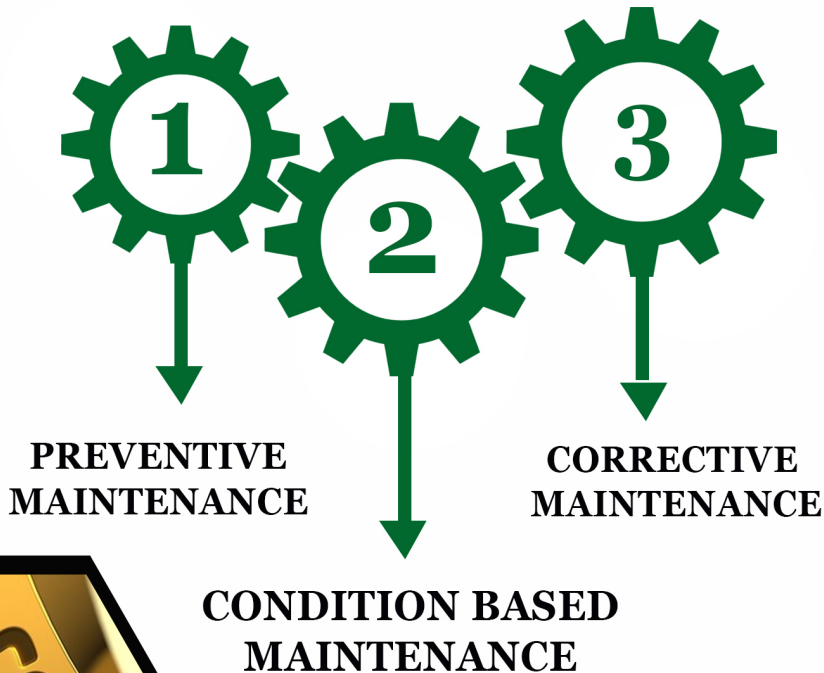

Ensuring warranty and Insurance.

We carry out Site Survey, Pre-feasibility study, Project Planning and provide end to end project management for timely and cost-effective installation of rooftop and ground mounted solar panels. The projects we undertook have all been successful because of our headstrong relationship with our vendors and our team's sincere efforts to deliver optimum system design for maximum efficiency and system life.

Not to mention the local coordination at the plant sites. We offer our clients a wide range of choices with respect to technology and model to pick from. The tier 1 modules that we provide our clients with, such as top-quality Inverters and IEC/IS certified components meet Ministry of New and Renewable Energy (MNRE) requirements.

O&M SERVICES ■

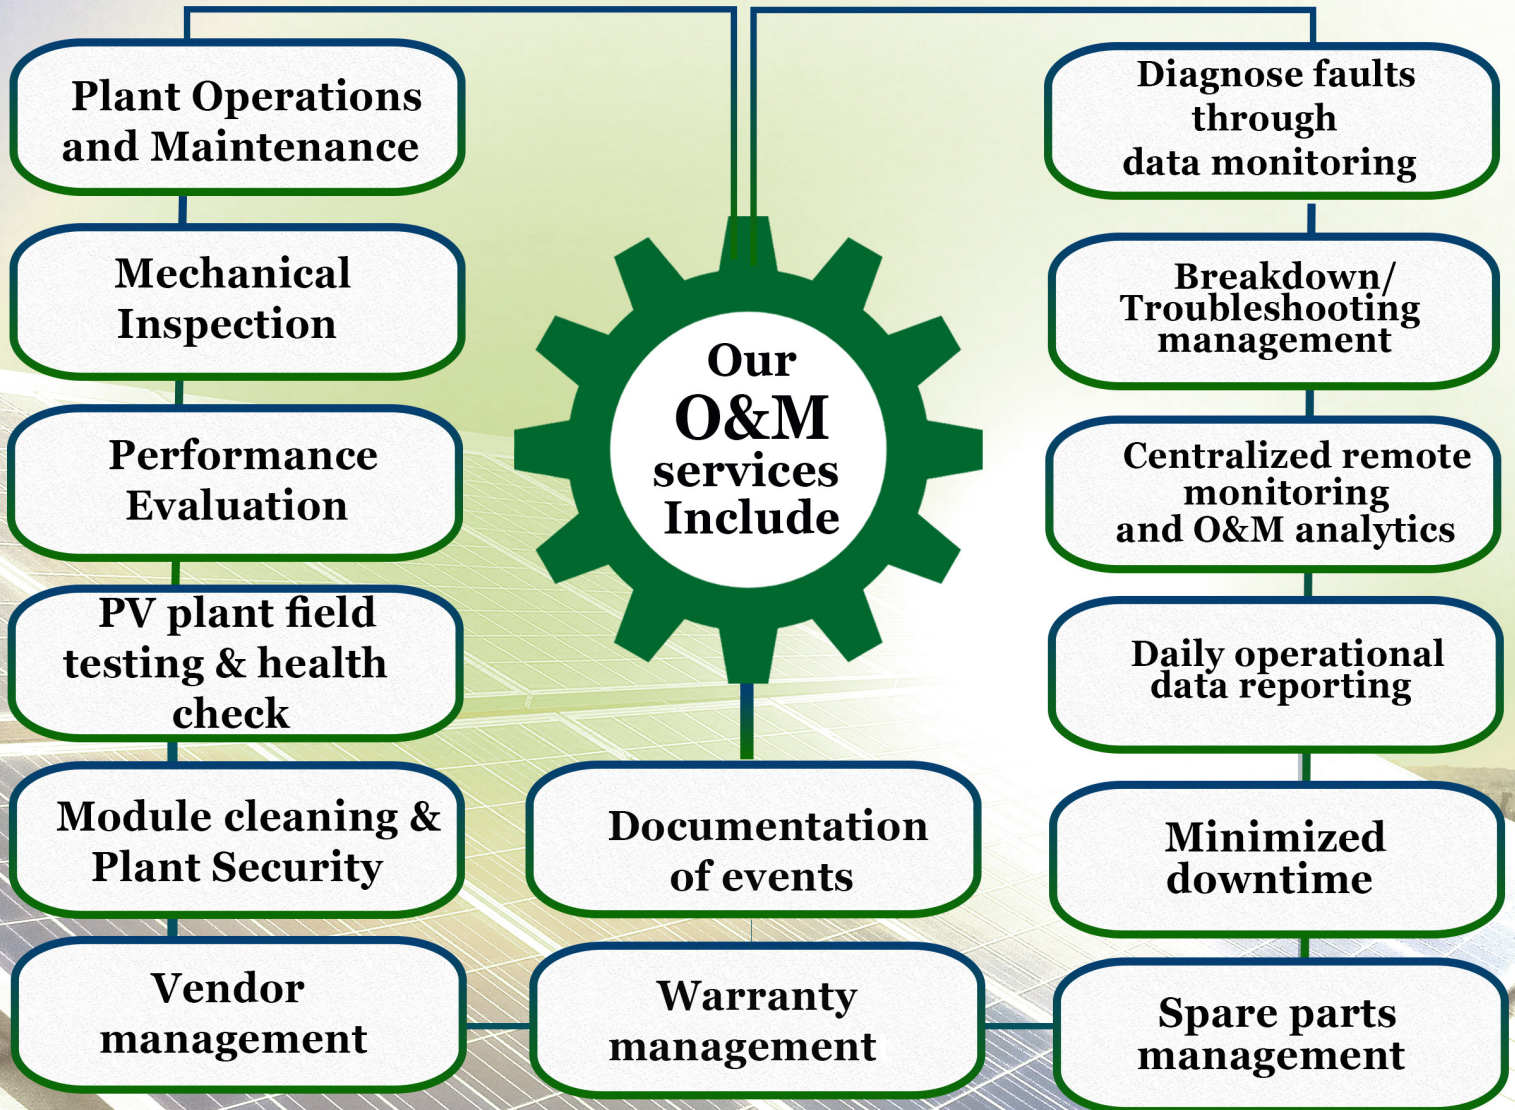

An effective and efficient management of the solar plants is critical to maintain proper functioning of them and ensuring returns on investment.

We offer comprehensive O&M services for all our solar plant projects.

MAINTENANCE

OUR BUSINESS MODEL

CAPEX (Capital Expenditure)

This is for customers who are all willing to set-up self-funded/ owned Solar PV system on their own roofs or their Lands/ common Parks.

Turnkey Solar Ground-mounted / Rooftop installation at a competitive price.

Concept to Commissioning - Design, Engineering, Procurement & Execution.

O&M services to maximize power generation

Lower electricity bills and Minimal post installation expenses

Attractive returns on investment with Accelerated Depreciation and other tax benefits

RESCO / OPEX

(Renewable Energy Service Company)/
(Operational Expenditure)

This is for customers who are all with limitation of Capital Expenditure, but willing to rent their roof/permit a third party to operate their funded/owned system, and deliver discounted power to rooftop owner or Grid.

Engineering, Procurement and Construction/ Installation without upfront cost to Consumer or Rooftop owner.

Operational Expenses are borne by VCPPL / Investor.

Hassle-free operations, O&M managed by VCPPL Team.

Solar Power Tariff is lesser than Existing EB Tariff, Increasing your savings.

Easy Monthly Installments against your Monthly billing.

Customized Power Purchase Agreement with Ownership transfer option. (BOOT)
